

# Sustainability Goals

## 2019 Highlights

We continue to make progress against our 2025 Sustainability Goals and current commitments, while moving our company and society forward toward a more sustainable future.

Read more about our progress in our 2019 Sustainability Report at [corporate.dow.com](http://corporate.dow.com).

Leading the Blueprint

Founding member

**\$1.5B commitment by ~50 companies** to develop and scale solutions to minimize and manage plastic waste

Announced **new collaborations** with the Dow-International Olympic Committee Carbon Partnership

Delivering Breakthrough Innovations

Launched **AGILITY™ C**, a new post-consumer recycled resin made with 70% recycled plastic

**76%** of R&D projects addressed world challenges

Advancing a Circular Economy

Signed agreements to integrate feedstocks made from **recycled plastics** and **renewable content** into production processes

Partnered to strengthen the business model for waste cooperatives in Brazil, increasing cooperative revenues by **35%** from 2018

Valuing Nature

Realized a total of **\$431MM**, mostly through avoided costs, toward creating \$1B in business value by 2025 from nature projects

Safe Materials for a Sustainable Planet

Awarded the **2019 Sustainability Champion Award** from Green Chemistry & Commerce Council (GC3) for leadership in value chain outreach

Collaborated with Beyond Benign to **advance higher education programs** centered around green chemistry theory and practice

World-Leading Operations Performance

Achieved **542 MW** of purchased renewable power – more than halfway to our 2025 target of 750 MW

Eliminated **670,000 hours** of life-critical work using robotic crawlers, drones and other technology

Engaging For Impact: Communities, Employees, Customers

**>18,000 Dow volunteers** collected **>175,000 pounds** of trash at **175** different locations globally during our #PullingOurWeight campaign

Distributed **~\$1.5MM** for Business Impact Fund sustainability projects in 9 countries

### New Targets – Solutions for Tomorrow

With the release of our 2019 Sustainability Report, we are introducing new, multi-decade targets that will help put us on the path to carbon neutrality by 2050 and eliminate plastic waste in our environment.

#### Climate Protection

By 2030, Dow will reduce its net annual carbon emissions by 5 million metric tons versus its 2020 baseline (15% reduction). By 2050, Dow intends to be carbon neutral (Scopes 1+2+3 plus product benefits).

#### Circular Economy

By 2030, Dow will help “stop the waste” by enabling 1 million metric tons of plastic to be collected, reused or recycled through its direct actions and partnerships.

By 2035, Dow will help “close the loop” by having 100% of Dow products sold into packaging applications be reusable or recyclable.
